

**YOUR STRATEGIC
SUPPLY PARTNER FOR
ENGINEERING STEEL**

BARRETT ENGINEERING STEEL

Barrett Engineering Steel are specialist suppliers of black and bright carbon and alloys, oil and gas materials and forged bar. Our 9 strategically located depots have a dedicated transport fleet, alongside several trusted logistics partners enabling us to deliver across the UK, Ireland and Worldwide.

- Dedicated Account Managers who have industry experience and technical knowledge
- Established suppliers to several leading OEMs and their subcontract network
- Material sourced from rigorously approved and trusted mills

We understand our customers have constantly evolving needs, and our ongoing investment programme ensures we have the products and services to match them.

SECTORS

Barrett Engineering Steel operates within a variety of different sectors, our team's extensive experience enables us to work in close partnership with prominent national and international companies.

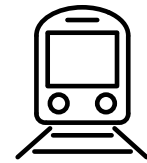

Sectors we support include:

Oil and Gas

Mining

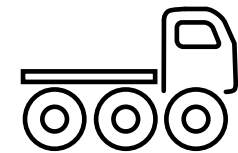

Rail

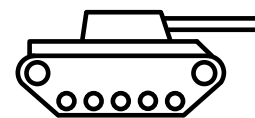

Construction

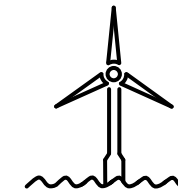

Automotive

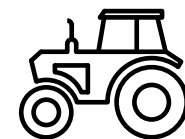

Specialist Vehicles

Defence

Renewables

Agriculture

SUPPLY CHAIN MANAGEMENT

Barrett Engineering Steel is proud to work alongside customers, offering tailored solutions to reduce costs while strengthening your supply chain.

- Experienced in understanding the requirements of OEMs and their subcontractor network
- Just in Time service to assist with cash flow
- Call off agreements for larger quantities of stock allowing you to take advantage of mill sized orders
- Stock can be held and kits of parts created increasing processing efficiency ready for call off

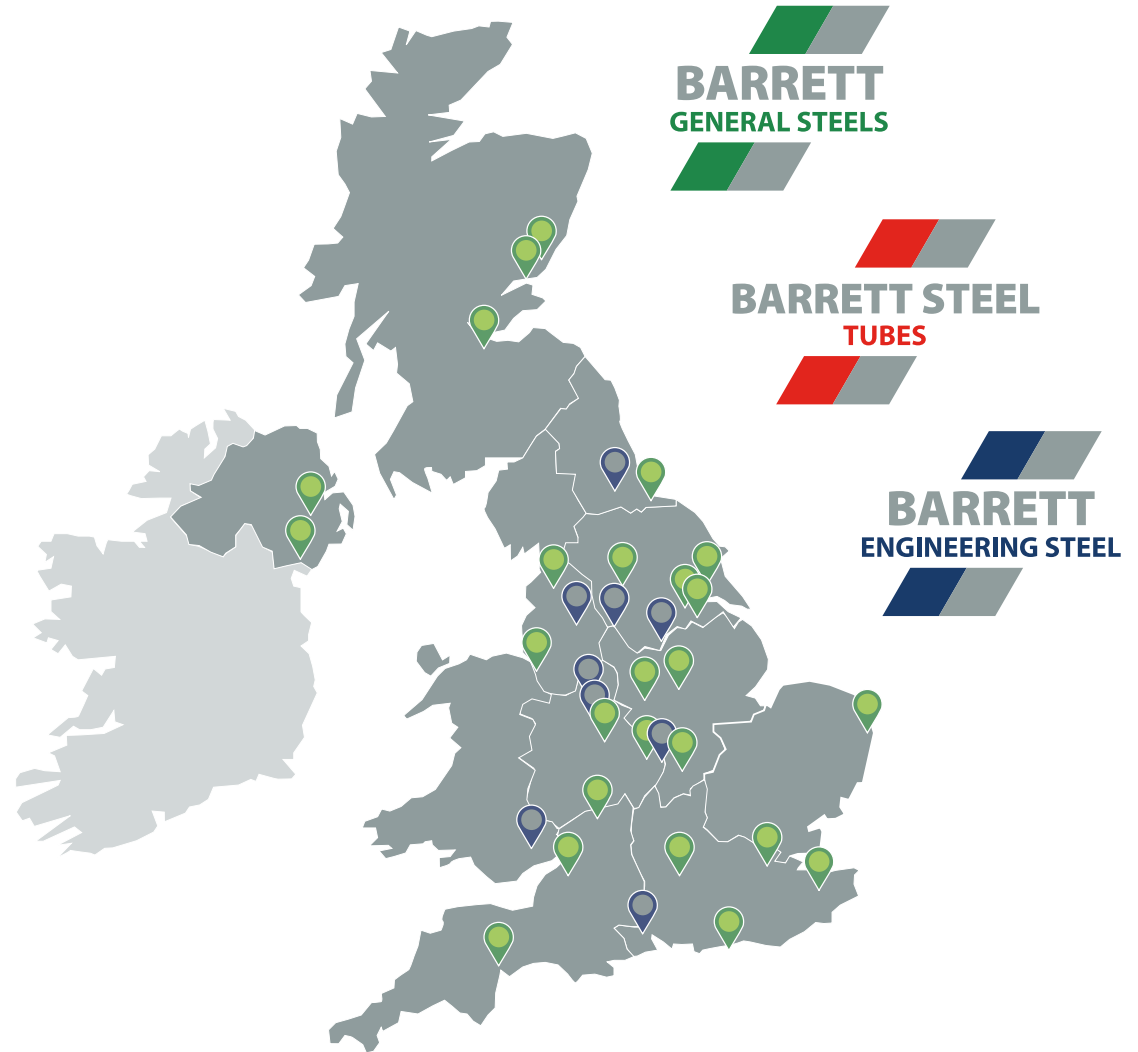

BARRETT STEEL GROUP

The Barrett Steel group have provided top quality customer service for over 155 years and develop long-term mutually beneficial partnerships that set us apart from our competitors. As the UK's largest independent steel stockholder, we have significant buying power and provide our customers with extra value.

Being part of the Barrett Steel Group means we can be a 'one stop shop' for all your project requirements with stock, processing and ancillary products all from one source.

- Hot and Cold Hollow Sections in addition to a wide range of ERW material
- Structural Section and Mild Steel - beams, columns, angles, flats and channel
- Safety and Access Products - handrailing, fabricated flooring, weld mesh, Defender and Armco
- Glass Reinforced Plastic (GRP) products such as flooring, stair treads and fabricated structures.

WIDER GROUP SERVICES - LASER

The Barrett Group have long led technical innovations through our continuous investment in the latest laser equipment and have the power to process through our unrivalled processing capabilities. Our latest addition to the group is our LT24 Jumbo Laser that is only the second of its kind in the UK.

Tubes

From 15.88mm to 610mm

Rectangular Sections

From 20mm x 10mm
to 500mm x 300mm

Square Sections

From 15.88mm x 15.88mm
to 400mm x 400mm

Open Sections

From 127mm x 76mm x 13KG
to 457mm 191mm x 98KG

Maximum cutting thickness

20mm

(2D cutting)

Maximum thickness cut dependent on section size and machine - 20mm.

Maximum thickness in Stainless Steel same as above but limited to 8mm.

Aluminium and other non-ferrous on application.

The Benefits of Laser

- Parts and frames of any complexity
- Elimination of layout
- Preparation for welding
- Small or large batches
- Eliminates risk on complex tubular trusses
- Automation and high productivity
- Short delivery times

WIDER GROUP SERVICES - PLATES AND PROFILING

Our expert CAD team have over 170 years of combined experience in the field to offer you the best service first time. With access to over 2,000 tonnes of stock on site, combined with the power of the UK's biggest steel stockholder, we can meet all your needs. The Profiling Division has recently invested £1 million in a brand-new state of the art 10kw Fibre Laser to bolster its processing power.

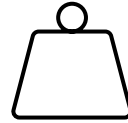

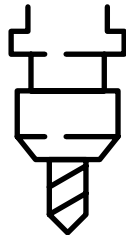

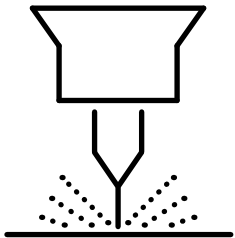

We have a whole scope of machinery on-site including:

Laser machines

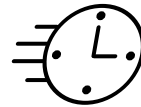

Plasma machines

Gas machines

Drill machines

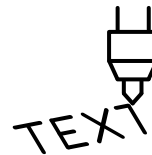

2,000 tonnes of plate on site, processing **70** tonnes of profiles daily, operating **24** hours a day to **support your business**

Quick turnaround
to hit your projects
lead time

Protective product packaging with detailed paperwork offers you **full traceability** from pallet to fabrication, ensuring a smooth transition from goods in to shop floor

CE Marking up to Execution Class 4 for quality and traceability

Dedicated **CAD engineering team** on site, from concept to completion, we've got you covered

WIDER GROUP SERVICES - SAFETY & ACCESS

Alongside our extensive steel portfolio we can also supply a wide range of Safety and Access products. Offering a one-stop shop for our customers and total service from initial advice through to design, supply, and delivery.

Our extensive stockholding and state-of-the-art production facilities, along with our long experience and in-house technical expertise ensure we can provide fast and cost-effective solutions for your requirements.

The range includes, but is not limited to:

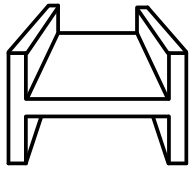

- Steel Forge Welded Grating available in standard panels or supplied fabricated to requirements.
- Extensive options in steel perforated planking for a wide range of applications.
- Stair Treads and Nosing including GRP Tread and Safetread if specified.
- GRP Flooring panels either in standard panels or fabricated to requirement. We can supply these in gritted or plain solid top or mesh/micromesh varieties.
- Ability to supply a wide range of Safety Gates to support all handrail barrier options.
- A wide range of handrailing options including standards, clamps and modular GRP.

In addition to these we can also supply Armco Barrier Systems, Roof Protection Systems and a wide range of Weld or Expanded Mesh.

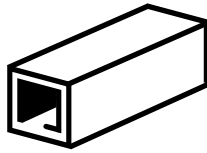

WIDER GROUP SERVICES - GENERAL STEEL

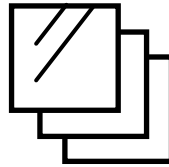

Barrett Steel stocks an extensive range of General Steel available for immediate off-the-shelf delivery using our own reliable and efficient nationwide transport fleet. These products are suitable for numerous construction, manufacturing and mechanical applications.

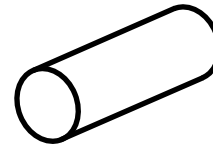

Structural Sections

Hollow Sections

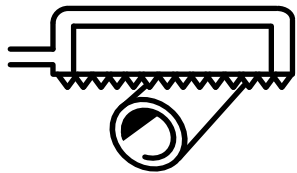

Sheet & Plate

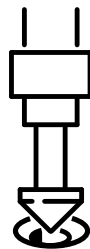

Merchant Bar

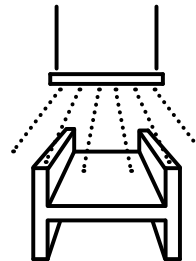

As well as our immediately available range of stock, we can also provide value-added processing service using our state-of-the-art facilities.

Cutting

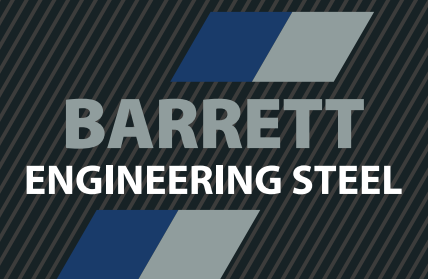

Drilling - including
Tapping/Countersinking

Shotblasting,
Prime and Painting
