

### Barrett Steel Group

Over 150 years of providing a hands-on customer service approach sets Barrett Steel apart from our competitors. From Henry Barrett starting the business in 1866 to today's group of more than 40 companies operating from 27 sites, customers have remained the core of our business. Our depots with state of the art facilities and leading-edge equipment can supply steel for all your requirements across the UK and Ireland.

## Barrett Engineering Steel

Barrett Engineering Steel are specialist suppliers of a wide range of black & bright carbon, alloy and stainless steel products and have over 8,000 tonnes of stock. Processing services include: cutting, peeling and grinding, boring, heat treatment, testing and machining.

We are an established suppliers to a number of leading OEMs. Covering a wide range of sectors that includes mining, oil and gas, yellow goods, off highway and automotive products. We understand our customers have constantly evolving needs and our on-going investment programme ensures we have the products and services to match them.

## Customer Service

Barrett Engineering Steel prides ourselves on the level of customer service we provide. We're always looking at how we can improve our excellent customer service performance on 5 keys points:

- **Product quality** • **Specification** • **Processing** • **Packaging** • **Delivery**

We strive to work in partnership with our customers with dedicated Account Managers sharing their expertise and outstanding problem-solving capabilities.

We have a comprehensive Quality Management System which is overseen by our Group Managing Director and regularly reviewed both internally and by independent assessors.

## Cutting Capabilities

Barrett Engineering Steel Ireland has recently invested in a new Kasto Circular Saw, with cutting capabilities of up to 155mm diameter and 2 metres long it is the most efficient of its type in Ireland. The saw is fully automated, includes a magazine loading system that can carry 12 x 6 metre lengths and can operate 24 hours a day.

If you have substantial billeting requirements we can also assist by implementing a Kanban System, to find out more about how we can help contact one of the team.

## Delivery

We provide a prompt and reliable delivery service using our own transport fleet of over 160 vehicles. Barrett Engineering Steel has 6 sites supplying and delivering across the UK and Ireland, overseas to Western Europe and the USA. Contact the team to find out more about delivery to your location.
